

MUDHALVAN PROJECT

ServiceNow IT Procurement Automation

Project Title: Streamlining IT Procurement: Automating Standard Laptop Orders with Flow

Milestone 3: Request Approval and Catalog Task

This milestone covers the Standard Laptop request process, from placing the request through approval and opening the generated Catalog Task record.

Activity 1: Standard Laptop Request and Catalog Task

Objective: Place the Standard Laptop request, open the Request record, complete the approval step, open the Requested Item, and access the Catalog Task.

1. Click on **All** >> Search for "**Service Catalog**".
2. Click on **Service Catalog** >> click on **Hardware**.
3. Scroll a bit to find the "**Standard Laptop**" >> click on that.
4. After that click on "**Order Now**" to place the request.
5. Now we will see the **Order status**.
6. In that click on the **Request Number**.

Request Record and Approval

7. It will open the **Requested number record**.
8. Scroll down. Click on the **Approvers Section**.
9. Right Click on the Record to see config in that click on the **Approve**.
10. Then click on the **Requested item Section**.
11. Open that **Requested Item record**.

The above steps describe the navigation and actions shown in the supplied project material. No additional screenshots are included here so the document keeps the same evidence style as the example PDF.

Catalog Task

12. Scroll down to the "**Catalog tasks**" Section.

13. Open the record to see the updated status of the record with Short description and assigned group.

The screenshot shows the ServiceNow interface for a Catalog Task record. The record ID is SCTASK0010001. The form includes fields for Number, Assigned to, Configuration item, Active (checked), Approval (Approved), Priority (-- None --), State (Open), Request item (RITM0010001), and Requested for (System Administrator). The Short description and Description fields both contain the text "Laptop need to Configured". The Comments (Customer visible) field is empty. The Activities section shows one activity performed by System Administrator. The Impact is 3 - Low. The record was opened by System Administrator on 2026-09-26 01:52:34. The interface includes a top navigation bar with "All", "Favorites", "History", and "Admin" tabs, and a bottom task bar with various application icons.

Number: SCTASK0010001

Assigned to: [Search]

Configuration item: [Search]

Active: ☒

Approval: Approved

Priority: -- None --

State: Open

Request item: RITM0010001

Requested for: System Administrator

Short description: Laptop need to Configured

Description: Laptop need to Configured

Comments (Customer visible): [Text area]

Work notes: ☐ Post

Activities: 1

System Administrator

Impact: 3 - Low

Opened by: System Administrator

Field changes: 2026-09-26 01:52:34

Figure 1: Catalog Task record – evidence for the completed task stage.

Milestone 3 – Expected Result

After completing the above steps, the Standard Laptop request reaches the Catalog Task stage. The Catalog Task record can be opened to review the task status, request item, requested-for information, short description, and other task details.

Area	Process
Service Catalog	Search Service Catalog → Hardware → Standard Laptop
Request	Order Now → Order Status → Request Number
Approval	Request Record → Approvers → Approve
Requested Item	Open Requested Item record
Catalog Task	Catalog Tasks → Open task record

Conclusion

Milestone 3 documents the Standard Laptop request journey from Service Catalog ordering through approval and Catalog Task access in ServiceNow. The Catalog Task screenshot is used as the single project evidence image, matching the evidence approach of the example PDF.
